Career Objective

As a student at FPT University with strong foundations in programming and a passion for web development, I am looking for an internship opportunity to gain real-world experience, improve my technical and teamwork skills, and contribute to practical projects.

Skills

Communication skills

Problem-solving

Presentation skills

Favourites

- Football
- Learn English
- Traveling

Education

Software Engineering

Sep 2023 - April 2027

FPT University

- Excellent Student for SUMMER 2024 Semester
- 50% Scholarship

Informatics Honor Class

Sep 2020 - May 2023

Phan Boi Chau Highschool for the Gifted

All years excellent student

Academic Projects & Experience

Fullstack Developer – Web Development Projects

Sep 2025 - Nov 2025

Meland Travel - Smart Booking Travel System - [github](https://github.com/khanh2005fpt/SmartTravelBookingSystem):

<https://github.com/khanh2005fpt/SmartTravelBookingSystem>

Tech Stack: Java, JavaScript, CSS, SQLServer, Apache Tomcat

- Developed a tour booking web application using Java, JSP/Servlet, and SQL Server as a semester project
- Implemented core features including island & tour listing, service display, booking form, and booking management to enhance customer experience
- Designed dynamic pages using JSP, JSTL, and CSS, improving usability and readability across the system
- Used SQL Server to manage tour, island, service, and booking data, ensuring structured storage and fast, accurate data retrieval

Front-end Developer – Web Development Projects

May 2025 - July 2025

Restaurant Seafood Management - [github](https://github.com/I22Ivip/Restaurant_SeaFood_-Management):

https://github.com/I22Ivip/Restaurant_SeaFood_-Management

Tech Stack: ReactJs

- Developed a Seafood Restaurant Management System using ReactJS and a RESTful API backend as a semester project
- Implemented core features including seafood menu listing, category filtering, table reservation, online ordering, and order management to enhance customer experience
- Built dynamic and responsive UI components with React hooks, React Router, and custom CSS, improving page navigation, usability, and system readability
